Why this program?

- Organizations across the globe are going through a never experienced transformation

- It is drastically changing the polarity of skills and hence, the learning requirement

- Academic institutions in India are currently under lockdown phase

- The students are finding it challenging to cope up with changed learning priorities

- ICT Academy, in Association with the Industry Leaders, partners is launching a new initiative Exclusive for the students – "New India Learnathon 2020", the Digital Learning Series, which will help the students to build futuristic skills

For Students of Engineering and Arts & Science colleges across India

Process

01

Registered students will receive learning guidelines through mail

03

College coordinator submits students report to ICT Academy

05

Students registration at ICT Academy portal

02

Students will start learning and update their progress to their institution

04

ICT Academy verifies the report and confirms the completion of learning

Skill building on RPA with Automation Anywhere

RPA is for everyone. And the benefits of RPA span all industries and business units. Applying RPA for business process automation is limited only by the imagination and putting bots to work has never been easier, with a growing marketplace of ready-made, ready-to-deploy Digital Workers available on demand, requiring no specialized IT infrastructure.

Modules	Duration
Hello BOT	3 hours
Break the ICE	5 hours
Storing and Manupulating Data	30 mins
Automating Excel Operations	30 mins
Working with PDF Documents	30 mins
Unleash Your Intelligent Bots	30 mins
Bot Story	2 hours

Total Learning - 12 hours

Start your journey on Cloud with AWS Educate

The program is intended to induce self-learning and introduce basic cloud technology skills to all students. The program is organised exclusively for all institutions across India, where the students learn the modules online through self-instructed videos and exercises and prove their cloud learning skills.

Modules	Duration
AWS Inventor	8 hours
Cloud Computing 101	9 hours

Build your skills today with CISCO

Cisco Networking Academy is an IT skills and career building program for learning institutions and individuals worldwide. This platform helps you to practice what you learn, and become an IT professional.

Here are few Beginner's program, which gives the basic understanding of the respective course category.

FOR IT STUDENTS

Modules	Duration
Introduction to Packet Tracer	10 hours
Cybersecurity Essentials	15 hours

FOR NON - IT STUDENTS

Modules	Duration
Introduction to Internet of Things	20 hours
Entrepreneurship	15 hours

Advance your skills with MATLAB

MATLAB offers this free course on Machine Learning and Deep Learning and provides an interactive introduction to practical methods on Deep Learning and Machine Learning. Here some of the topics that will be covered are classification workflows, importing and pre processing data and managing collections of image data.

Modules	Duration
Machine Learning Onramp	2 hours
Deep Learning Onramp	2 hours

Begin your journey with Salesforce Trailhead

Salesforce Trailhead is a fun way to learn. Chances are, your next job will require Salesforce skills.
This Trailmix is the initial step for the program "Become Job Ready for Developer" which will be launched by ICT Academy in the month of June.

Modules	Duration
Become Job Ready for Developer - Trailmix 1	12 hours

Modules from VMware

Businesses use virtualization to build large clouds to serve millions of people. Virtualization can be a powerful tool for anyone from public clouds to personal computers. You can use virtualization to run multiple operating systems on a single computer or backup your computer as a virtual machine. VMware IT Academy helps learners study cloud and virtualization.

Modules	Duration
Software-Defined Storage Concepts	9 hours
Network Virtualization Concepts	9 hours

Skill up your communication with STEPATHON

This course develops the key communication skills namely reading, writing, listening and speaking skills as well as grammar and vocabulary. These video lessons use contexts involving practical, real-life situations and equip learners will skills need for day-to-day communication.

Program Focus:

- Reading
- Writing
- Listening
- Speaking
- Grammar
- Vocabulary

Total Learning - 10 hours

List of Courses

S. No.	Course	Hours	Company
1	RPA Essentials	12	Automation Anywhere
2	AWS Inventor	8	AWS Educate
3	Cloud Computing 101	9	
4	Introduction to Packet Tracer	10	CISCO
5	Cybersecurity Essentials	15	
6	Introduction to Internet of Things	20	
7	Entrepreneurship	15	
8	Machine Learning Onramp	2	MatLab
9	Deep Learning Onramp	2	
10	Become Job Ready for Developer	12	Salesforce
11	Stepathon - Communication Skills	10	STEP - The Hindu Group
12	Software-Defined Storage Concepts	9	VMware
13	Network Virtualization Concepts	9	

Benefits & Recognition

01 National level, State level and Institutional level recognition for Institutions & Coordinators

02 Institutions will be recognized only upon 100 students completing the learning with a minimum of 10 courses each

03 Every student will get a certificate on completing a minimum of 10 courses each

**04** Opportunity to set up BOT LAB in the Institution, on fulfilling certain criteria set by AAU

05 Opportunity for Institution membership on AWS Educate

06 Opportunity to become CISCO NetAcad Institution member
